Dear OAMRS awards committee,

I want to take the time to nominate Dianne Robia for the Patient Care Award. Dianne goes above and beyond for each patient she interacts with daily to provide the most exceptional care possible. She is continually advancing her clinical and practical knowledge by educating herself in continuing education. Dianne shows excellent leadership and helps all co-workers in need without a doubt. In the eyes of new trainees in Breast Imaging, she is known to be a true role model. If needed, Dianne will stop whatever she is doing and be there in a flash to assist with any cases or patients that she can. Dianne is a true example of an outstanding, courageous, thoughtful, patient-centred employee at the Ross Memorial Hospital. Patients are always comfortable in the hands of Dianne's care, as she is compassionate and understanding of their difficult medical journeys. She takes pride in her work and puts forth her total effort each and every day without a doubt. Inspiring to say the least, patients always recognize our co-worker Dianne for all her hard work and effort. No matter what patients are going through, they leave our hospital with a smile and a little less fear following their appointment.

It is without a doubt that Dianne Robia is a perfect fit for this Patient Care Award, and she goes above and beyond with her outstanding service, exceptional patient care, and excellent organization/communication to keep our Mammography department running ever so smoothly.
